

# *mega macs 42*

A compact lightweight diagnostic tool - tested and proven for use by accident repairers

# mega macs 42

Exceptional functionality,  
unrivalled performance  
and comprehensive vehicle  
coverage

## For fast, accurate fault-finding and resetting

The **mega macs 42** is a powerful, functionally-rich diagnostic reset and adaptations tool with coverage for the vast majority of cars and light vans on UK roads. Built with technology developed by Gutmann Messtechnik, leaders in automotive diagnostics for more than thirty years, the **mega macs 42** has a proven capability for use by accident repairers.

## Using the mega macs 42

With intuitive software, just nine buttons to operate and a 3.8" colour TFT screen, the **mega macs 42** is supremely easy to use. Technicians can be up and running with it very quickly - there is no need for specialist training.

Regular online updates mean that the **mega macs 42** can be maintained with the latest vehicle data.

## Tried and tested by accident repairers

Through its Repairer Approved Product Scheme (RAPS), Autoclimate invited a number of accident repairers to evaluate its performance and capabilities.

## Feedback included:

*"Very user friendly, easy to use and good data coverage"*

*"Body control module access exceptional"*

*"Better than existing tool.....good additional information on faults"*

## A great investment

The **mega macs 42** is competitively priced with various contract terms available. The combination of its vehicle coverage, diagnostic and reset capability make it ideal for the task.

## Technical Support

Autoclimate offers full technical support for the **mega macs 42** with expert advice and information if required.

# mega macs 42

No need to sub-contract diagnostic and reset work - a fast payback investment for accident repairers

## mega macs 42 features

- Vehicle diagnostic socket locator function
- Read/delete fault codes of all accessible ECUs
- Fault code explanation including symptoms and possible causes
- Live data with graphical and numerical display, including actual vehicle values
- Service point resetting including variable servicing, brake pad and fluid sensors
- Reset adaptations including xenon head lights, steering sensors, electronic parking brake
- Actuator testing
- Component and ECU coding including injector/BSI units/ABS
- DPF regeneration, additive and filter reset
- Print function for all results
- Bluetooth Air Macs adapter for updates and wireless printing
- Each unit serial number controlled and registered
- Includes adapter cables for Audi, BMW, Mercedes-Benz, Opel, SEAT, Skoda, Vauxhall and Volkswagen vehicles. Other adapters available to order
- Internal battery charged from the diagnostic socket
- 1, 2 or 3 year fully inclusive packages available

# mega macs 42

## technical data

Part number	02320-0011
Supply voltage	12 – 18 V
Battery charging voltage	8,4 V
Current consumption	max. 1 A, standard 500 mA
Power supply	1 Li-Polymer battery, min. 1000 mAh, Vehicle electrical system voltage through ST2, Mains supply
Display	Type of construction: LCD-TFT. Size: 3.8"
Storage medium	Flash
Input	Membrane keypad
Working range	0 – 45 °C
Weight	0.7 kg incl. battery
Dimensions	43 x 124 x 209 mm (H x W x D)
Type of protection	IP31
Interfaces	USB device, ST2
Delivery contents	mega macs 42 ST2 cable with CARB plug Adapters as listed
